

ART FROM HEART

## ROOM 3 : LAND & PEOPLE

Saturday, June 12, 2021 to Monday, July 12, 2021

ART from HEART is proud to present the virtual Exhibition Voices of Earth, an interdisciplinary group art exhibition Celebrating life on Earth!

The Exhibition was inspired by the poem “Voices of Earth” written by Archibald Lampman in 1895. It brings together 54 multidisciplinary artists from the UK and Internationally, grouped in 4 Rooms, all inspired by the theme of human-nature relationship.

The Exhibition portrays the eternal beauty and quality of nature while reflecting on humans’ dependency, abuse and destruction of it through time.

The artistic responses to the theme have beauty, depth and sensitivity, and offer a wide range of interpretations, visions, styles, and disciplines, enriching and challenging our perceptions and our relationship with nature.

The artworks in this Room are all inspired by Earth’s eternal beauty and the symbiotic relationship of humans with the land and nature. It takes the viewer on a journey through the land, flora and fauna, and the visible effects of human activity causing deforestation and pollution. It touches upon the importance of upcycling and listening to the voices of Indigenous female activists to protect and preserve the land, traditions and culture for generations to come.

Enjoy touring Room 3 of the Virtual Exhibition Voices of Earth!
